

FINCA TESORO

treasure found within

TESORO

ALCHEMY

RETREATS - BODYWORK - HIVE ALCHEMY

Tesoro is a B&B style retreat set in the lush hills of Cambutal, Panama. We inspire you to slow down, reconnect with land, body & spirit through rest, reflection and savoring the sweet nectar of life. We use ancient beekeeping techniques which honor the essence of the great mysteries set forth thousands of years prior to modern day. We will assist you to unveil transformation through slow nourishment, ancient bodywork, and shamanic dreamwork through the lens of the magical medicinal honeybee. Our services extend to leading workshops & retreats abroad to support wellbeing in group environments and the future of Apitourism. We travel to locations which honor ancient beekeeping practices such as Egypt, Greece, Lithuania, Slovenia and the British Isles. We are a couple devoted to preserving the land, promoting sustainable tourism, and do so without the involvement of investors.

Our location in Cambutal offers the solace of a rural beach village location. We provide comfortable sleeping accommodation with sustainable quality bed and linens, composting toilet and outdoor shower, alongside fully roofed outdoor areas to lounge and find respite.

We offer a hearty homemade breakfast of Panamanian coffee, local eggs, our own granola, locally made yogurt, local fruits and of course, our own honey. Our small community in Cambutal is comprised of local Panamanians, international expats and transient nomads drawn to the magnetic pull of the black sand beaches and surrounding mountains. We work together to ensure sustainable tourism is at the heart of our ethos.

Tesoro partners with Azuero Adventures whose business model is strictly equitable tourism, utilizing the amazing talent of local Cambutalenos and making them partners rather than employees. This brings local Panamanians a sense of ownership and agency to their skills, talents, livelihood and lives. We honor those who came here before us and whose land we inhabit.

What your time with us will include....

- Overnight accommodations with two night minimum
- Honey and herbal oil massage & banya style sauna sweat
- Ceremonial cacao & pollen ritual
- Onsite bee habitation observations
- Shamanic bee dreamwork journeying
- Jungle trek with local guide to observe bees in their wild habitat
- Gift box of handcrafted hive products such as;
 - Bee pollen
 - Honey comb
 - Propolis infused healing salve
 - Medicinal herbal infused honey
 - Beeswax candle and handmade incense

What is bee shamanism?

Bee Shamanism translates to the ancient practice of bee worship and healing from the Egyptians, Greeks, Lithuanians and Celts. Our co-owner Cara will take you on a journey which connects us to spirit through the lens of the magical honeybee.

Whether you choose to attend the location in Cambutal, or join us for a retreat extending to other lands that hold bee spirit alive, we will bring the medicine to you.

Our goal is to assist in the transformation of self discovery through hands-on healing via travel. Travel should challenge and inspire so that we might find reconnection to our community, our land, our body and our spirit along the way, and once we arrive back home. Bringing the tools we gathered on our travels back home allows us to re-engage with a fresh set of eyes so that we can make the world a better place in our own homes and backyards.

We will break ground in 2024.

Please sign up to receive updates if you are interested in exploring what we have to offer. We look forward to welcoming you to a transformational experience.
